

CWE User Experience Working Group (UEWG)

- Mission Statement -

Alec Summers (MITRE), CWE Program Lead
Chris Coffin (MITRE), UEWG Co-Chair
Przemyslaw 'Rogue' Roguski (Red Hat), UEWG Co-Chair

The CWE Program – operated by the CISA-funded Homeland Security Systems Engineering and Development Institute (HSSEDI) – operates a community-driven effort to identify areas where CWE content, rules, guidelines, and best practices must improve to better support stakeholder use cases and work collaboratively to fix them.

You are invited to join this effort and become a member of the Working Group's efforts that include, but are not limited to:

1. Improving CWE site navigation.
2. Addressing CWE definitions and weakness language.
3. Developing guidance on how to use CWE information.
4. Identifying opportunities to further integrate with various vulnerability management ecosystem activities/groups.

The group meets monthly on Wednesdays at 12:00 p.m. ET.

Please contact cwe@mitre.org if you are interested in actively participating in this effort.

Best regards,

Alec Summers, CWE Program Lead
Chris Coffin, UEWG Co-Chair
Przemyslaw Roguski, UEWG Co-Chair
